

On Monday morning, the 15th inst., the General one through the city. While the President of the United States, one of his agents brought an action for the money; judgment was obtained and execution issued against the body of the defendant, who was taken to jail. He had considerable landed estate, but this kind of property cannot be sold in Virginia, unless at the discretion of the owner. He had a large family, and for the sake of his children preferred lying in jail to selling his lands. A friend hinted to him that probably Gen. Washington did not know anything of the proceeding, and that it might be well to send him a petition with a statement of the circumstances. He did so, and the very next post from Philadelphia, after the arrival of his petition in that city, brought him an order for his immediate release, together with a full discharge and severe reprimand to the agent for having acted in such a manner. Poor Ronzey was consequently restored to his family who never laid down their hands at night without first presenting prayers to heaven for their beloved Washington. Providence smiled upon the labors of the grateful family, and in a few years Ronzey enjoyed the exquisite pleasure of being able to lay the money with interest at the feet of the truly great man. Washington reminded him that the debt was discharged Ronzey replied, the debt of his family to the father of their country could never be discharged; and the General, to avoid the pleasing importunity of the grateful Virginian, who could not be denied, accepted the money—only, however to divide it among Ronzey's children, which he immediately did.

A FANCY SWINDLER ARRESTED.—A fancy financier whose doings have given rise to many a newspaper item, he being no less a personage than the celebrated Capt. Don Yuley, otherwise known as Capt. Cannon, or plain Charles Demore, was yesterday arrested by some of the best folks of the First District Police. The chase for the Don commenced in the Second District, and for a time he ran like a quarter horse, notwithstanding that never-healing wound in his leg which he received at Vera Cruz. Eventually he slipped over into the First District, where his pursuers got on his trail, and he was finally captured. He now awaits a hearing on a charge of having laid felonious hands on the plebeian sum of \$25, belonging to a citizen of the Fourth District. The Captain, we are glad to perceive, still wears those long fashionable and graceful locks which have captivated so many female hearts and his tongue is just as glib as when he played off his schemes of love and financial might amongst us in the days of other years. He slept last night in one of the guard house bunks. Such are some of the more recent incidents in the history of the barber and would-be hero of Vera Cruz.—*N. O. True Delta.*

Destructive Fire.
New York, Dec. 20.
A late hour last night a fire broke out in the Assembly Rooms, situate on Broadway. A ball was being held in the building, and was in the full tide of enjoyment when the flames were first discovered. The conflagration was intense, when it was proclaimed that the place was on fire. Ladies and gentlemen rushed to the doors in terrible confusion, and endangering each other's lives. The night was intensely cold, and a strong wind was prevailing at the time. The flames spread with surprising rapidity, and in a very short time the entire building was a heap of ruins. The walls fell, which aided in communicating fire to the adjoining property. The flames extended through to Crosby street, destroying several buildings. Amongst the sufferers are the Wood Minstrels, also the extensive coach factory of Mr. Kinstry; Duncan's Saddlery, Lyon's Medicine House and others. Three buildings immediately adjoining the Assembly Rooms were also consumed. It is impossible to estimate the entire loss which may amount in all to something like two hundred thousand dollars, upon which there is a partial insurance.

The night was intensely cold and the firemen suffered severely. The water thrown from their engines froze in some instances, as it fell.

Several of the heavy walls fell with a terrific crash, and it is yet seriously apprehended that several persons have been buried in the ruins, none, however, have been found up to this hour. Workmen are busily engaged in clearing away the rubbish, in the fearful expectation of finding persons underneath. The ladies at the ball all escaped in safety. It is not known how the fire originated.

New Discovery in Electricity.
It is stated that the Galvanic Battery is about to be superseded by the Magneto-Electric Machine. It is a subject which has received attention from men of science. We are not familiar with the subject ourselves, but we are informed that Dr. Calvin Carpenter, Jr., of Providence, Rhode Island, has discovered a form and arrangement of the Magneto-Electric Battery which entirely supercedes and zinc acid batteries for every purpose to which they are applied, particularly for telegraphing, electrotyping, and electroplating. Patents have been obtained at home and abroad, and machines are now in process of construction, to test the matter fully. The new plan, it is stated, combines the elements of several small machines in such manner as to embody in one any power that may be desired, in a uniform and continuous current. The zinc acid battery is expensive, deleterious to health, and otherwise objectionable. The Magneto-Electric Machine of Dr. Carpenter is free from these objections, and is operated cheaply by simple clock work.—*National Intelligencer.*

A man being told that he would have to go to the State Prison and pick junk, was so enraged that he vowed he would pick it all to pieces.

STOLEN CHECKS RECOVERED.—Our readers recollect the recent robbery which took place at the Railroad Depot, by the blowing open the door of the Safe. Considerable money was stolen, as well as a number of checks and valuable papers. On Wednesday last, after the arrival of the passenger train, the lost checks and papers were found under one of the seats of a passenger's car. The robbers finding them of no service, no doubt placed them there while the cars were at Atlanta.—*Augusta Con. & Rep.*

THE Southern Electric and Home Journal says that on looking over their subscription books, it was found that their subscribers had, at least three to one, paid more promptly for the paper than their male subscribers. This fact proved to the editors what they never doubted, that women exceed men in doing justice and promoting the good of society in every way compatible with their positions in it.
